

22nd December 2020

Dear Parent/Guardian,

On Wednesday 9th of December most TY students participated in the online Aptitude and Interest Inventory testing. The purpose of the testing was to equip students with a deep insight into their aptitudes and interests enabling them to make more informed subject choices for the Leaving Certificate and career paths beyond. For those who have completed the testing, the detailed reports which reveal student's strengths and weaknesses and give new insights into their potential are now available to view and download.

From tomorrow morning at 9:00 am each student will be able to access their own confidential report by following the link below. Parents are strongly advised to access this information with their son/daughter to help them interpret the information in the document. To help you with this I have attached a sample report so that you may become familiar with the structure and style of the report.

<https://login.myfuturechoice.com/complete-student-registration/7125d173-2611-4d29-a345-00591cd4c721>

Students and parents can access the site by using the registration email and password used by the students on the day of the testing. Students were instructed to use their Scoil Dara email address when registering. Should there be any difficulty accessing accounts to read the reports please contact me and we will help rectify the situation. Where a student was absent on the day of the testing, we will do our best to facilitate a second sitting in the new year.

Kind regards,

Eamon Ryan
Programme Coordinator
Scoil Dara
